

REMARKS

Applicant provisionally elects, **with traverse**, Species 1 reading on Figures 1-3B.
Claims 3 and 10 read on Figures 1-3B.

However, new claim 12 is generic to Species 1, 3, 4 and 6. New claim 12 generically recites that the hollow is formed "in the lead frame." This recitation reads on each of species 1, 3, 4 and 6 corresponding to Figures 1-3B, 6-8 and 10. Claims 4 and 11 read on Figures 6-8.

Accordingly, Applicant respectfully requests new generic claim 12 be examined with elected species claims 3 and 10. As a result, if generic claim 12 is allowed, species claims 3, 10, 4 and 11 should also be allowed.

For this reason, Applicant respectfully requests withdrawal of the restriction requirement of Species 1, 3, 4 and 6.

Dated: 11/10/05

Respectfully submitted,
